## **DETAILED ACTION**

### ***Response to Arguments***

1. Applicant's arguments, see Remarks (pages 8 and 9), filed 2/14/2008, with respect to claims 22-29 and 51-58 have been fully considered and are persuasive. The objection of claims 22-29 and 51-58 has been withdrawn.

### ***Allowable Subject Matter***

2. Claims 22-29 and 51-58 allowed.

3. The following is an examiner's statement of reasons for allowance:

\* Objected claims 22-29 and 51-58 have been rewritten in independent form including all of the limitations of the base claim and any intervening claims;

\* All rejected claims have been cancelled to place the application in allowance condition;

\* The present application provides a new apparatus and method for image processing so as to display images at high speed and in a size reduced manner, and enable efficient image decompression (see specification, page 9, paragraph [0035]).

Particularly, the new apparatus and method comprise the following features, which the prior art taken either singly or in combination does not teach:

- modifying the code data to the desired code size based on the corresponding relation stored in the memory unit (see independent claims 22, 24, 51 and 53);

- modifying the code data to the desired code size based on the corresponding relation embedded into the code data (see independent claims 26, 28, 55 and 57).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
